ABOUT US

MicroCreds is an ambitious 5 year, €12.3 million project led by the Irish Universities Association (IUA) in partnership with seven of the founding IUA universities: Dublin City University, Maynooth University, Trinity College Dublin, University College Cork, University College Dublin, University of Galway and University of Limerick.

Our partner universities are collaborating to develop, pilot and evaluate the building blocks required for a transformation in lifelong learning through micro-credentials. Micro-credentials have the potential to reimagine and reframe the relationship between learners, universities, enterprise and civil society partners, generating a step change in lifelong and life-wide learning.

Our aim is for MicroCreds to address many of the barriers to participation in lifelong learning, including time constraints for learners and inflexibility in current programme provision and delivery. The inherent flexibility in micro-credentials means that learners can access learning in discrete small units, at a time and pace which allows greater balance with both life and work commitments.

IGNITE YOUR LIFELONG LEARNING JOURNEY TODAY BY EXPLORING OUR WIDE RANGE OF MICRO-CREDENTIALS ON OFFER DURING THE 2024/2025 ACADEMIC YEAR.

Maynooth University
National University of Ireland Maynooth

Trinity College Dublin
Coláiste na Tríonóide, Baile Átha Cliath
The University of Dublin

UCC
University College Cork, Ireland
Coláiste na hOllscoile Corcaigh

University College Dublin
An Coláiste Ollscoile, Baile Átha Cliath

OLLSCOIL NA GAILLIMHE
UNIVERSITY OF GALWAY

WHAT ARE MICRO-CREDENTIALS?

The world of work is changing and education has never been more important in developing the skills to future proof yourself and your career. Micro-credentials are small, accredited courses designed to meet the upskilling demands of learners, enterprise and organisations. Micro-credentials provide highly flexible and approachable learning opportunities to upskill and reskill in a way that fits around learners' commitments.

Our micro-credentials are research-led, and are quality assured by leading Irish universities. Learners may choose to undertake an individual micro-credential or continue studying, building different skills and knowledge over time.

MICRO-CREDENTIALS FROM MICROCREDS PARTNER UNIVERSITIES ARE:

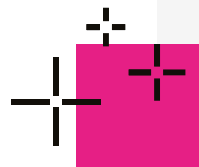

- *Underpinned by quality assured teaching, learning and assessment*
- *Credits in the range of 1-30 ECTS (1ECTS = 25 Learning Hours)*
- *Learning aligned to Level 6-9 on the NFQ*

THE BENEFITS OF MICRO-CREDENTIALS

BITE-SIZED

Micro-credentials are short, focused burst of learning designed to address a specific skills need.

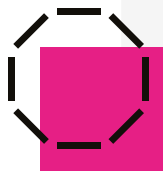

FLEXIBILITY

Micro-credentials are designed to be more flexible than traditional university courses and fit around the needs of learners and enterprise.

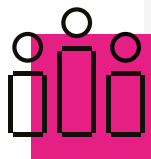

ACCREDITED LEARNING

Our micro-credentials are accredited by leading Irish universities offering quality assurance to the programme and its learning outcomes.

FUTURE PROOF

Micro-credentials are informed by current and emerging skills needs to help learners stay competitive in the workforce.

ENTERPRISE-LED

Micro-credentials are designed in collaboration with enterprise to address current and future skills needs.

STACKABLE LEARNING

Micro-credentials are standalone courses with some being able to be combined over time into larger awards through identified pathways.

FUNDING SUPPORTS

There are currently a number of different funding supports available for micro-credentials offered through the Irish Government, professional bodies and directly through our partner universities.

HCI PILLAR 3 MICRO-CREDENTIAL LEARNER FEE SUBSIDY

The HCI Pillar 3 Micro-credential Learner Fee Subsidy has been introduced to enable more learners to address critical skills gaps and engage with lifelong learning through short, flexible courses known as micro-credentials.

The HCI Pillar 3 Micro-credential Learner Fee Subsidy is funded by Higher Education Authority (HEA) and the Department of Further and Higher Education, Research, Innovation and Science.

HCI Micro-credential Learner Fee Subsidies are available on identified micro-credentials only and in fixed numbers from March 2024 until October 2025. University Partners will issue the subsidy on a first come first serve basis to eligible applicants unless otherwise stated. Learners can apply for the subsidy through the application process for their course.

SKILLNET FUNDING

Many of our partner universities have partnered with Skillnet Networks to deliver micro-credentials at a subsidised rate for members. For eligible courses please consult MicroCreds.ie or reach out to your local Skillnet Network.

OTHER FUNDING OPTIONS

Many of our partner universities has alternative funding options available including discounts for alumni. To find out about available funding options that you may be eligible for please consult our partner universities directly.

STAY CONNECTED

OUR PARTNER UNIVERSITIES

For specific queries about micro-credentials, application processes or entry requirements please contact the relevant university.

MICROCREDS PROJECT

If you would like more information about the MicroCreds project and our work, please email info@microcreds.ie

ENTERPRISE ENGAGEMENT

If you are looking to address a specific skills gap in your organisation but can't find the right micro-credential to address it, our partner universities may be able to assist you with the development of new micro-credentials. To discuss opportunities for collaboration contact one of our partner universities directly or email info@microcreds.ie
